PowerSeal's patented dual o-ring TwinSeal® gasket incorporates both hydrostatic and mechanical forces to affect a positive seal on all pipe surfaces. As the distribution system's pressure increases, the tightness of the seal is equally increased. This unique design compensates for expansion and contraction due to pressure or temperature variances in water mains and service lines.

HOW TO ORDER: Choose nominal pipe size x outlet size and thread configuration. **EXAMPLE:** 4" C900 O.D. 4.80 with 3/4 CC outlet. Order 3403 - 4 x 3/4 CC. **Part Number:** 3403040075HB .

Note: Saddles 3401, 3402, 3403, must be ordered in box quantities.
