ADAPTERS DETAIL

* Use with the 2" FIP Adapter to make a 1 1/2" FIP Adapter.

This illustration shows the assembly of a 3/4 inch Vega Drill and Compression Adapter to a compression Corporation Stop.

This illustration to the right shows that the Pack-Off Plate Adapters are designed to connect to both Flanged and Mechanical Joint Valves. The Adapter is shipped with a Flat Face Flange Gasket glued in place, but the Adapter can be reversed in the field and used with a Standard MJ Gasket.

This design feature also requires the two different Bolt Circle patterns as shown.
