Re: Price Increase

As much as we regret due to matters out of our control, we must announce a price increase effective July 1st via a 4% discount change. This is due to the continuing volatility with tariff implementations coupled with rising costs in every facet of our supply chain. We will be reviewing all customers' discount structure at this time and will be making corrections to offset at least a portion of these material increases.

We will begin immediately to get those of you involved with revised updated copies of your pricing structure. As always, all existing quotes will be honored until their expiration dates.

Once again, we would like to thank all of you who are letting us be a part of your business operations We will work hard to service your needs.

Best regards,
